## Verse 1

As I look around things get greyer, every face I see is a stranger...  
Nothing's familiar, everything's peculiar and it's strange.

There's something white covering me, It's getting brighter hard to see  
The pain's releasing... hand is reaching I can breathe.

## Verse 2

It's a bit strange release my hold  
I'm feeling darker, alone, more cold  
Wanna find a way, feel the warmth awaken me...

Time stops, feel the stand still... No longer a blur, picture is real...  
Stepping thru the clouds... Now I Know I am free...

## Chorus / Hook

Now I'm with you... you're with me  
Now I'm with you...  
(repeat)
